

# AUXILIARY MATERIAL SYSTEM FOR CURTAIN WALL

## ENGINEERING

# 06

### Auxiliary materials for curtain walls

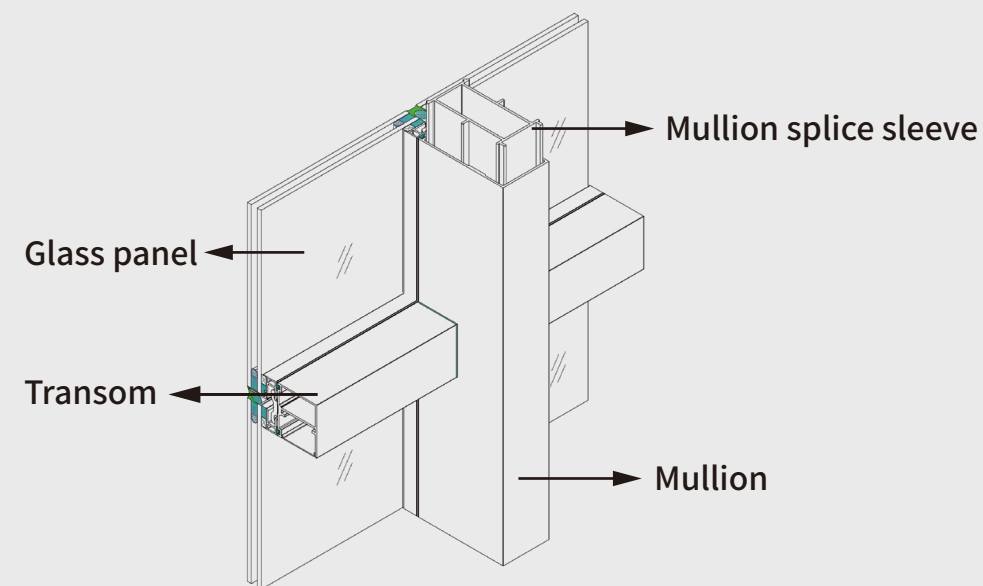

## 01

- ① ② Embedded parts
- ③ ④ connecting parts

## 02

- ① Steel processing part core

3D Detail of Hidden Frame Curtain Wall (Interior View)

## 03

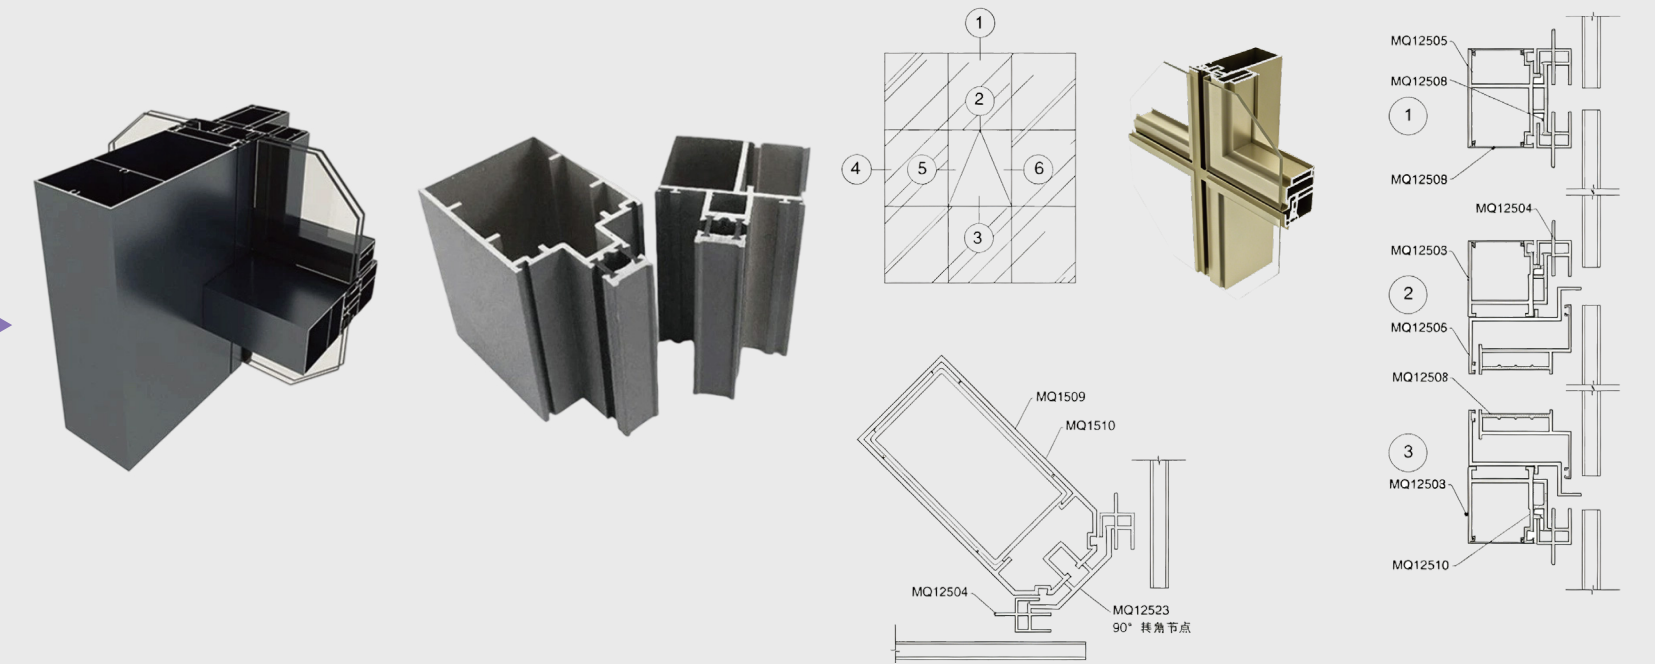

- ① Channel-type embedded parts for unit curtain walls

### Skeleton series materials

## 01

- Aluminum alloy profiles (hidden frame, exposed frame, unit type)

## 02

- Steel profile frame

## 03

- Ceiling light steel keel

## Aluminum plate and glass series

2.5/3.0/4.0mm fluorocarbon paint

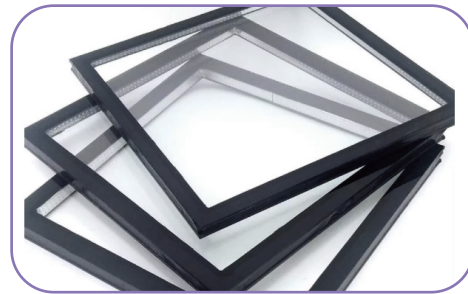

fluorocarbon powder aluminum plate

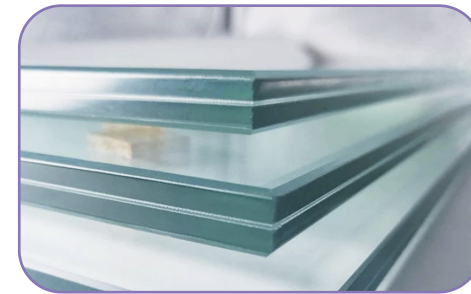

Low-E glass (single silver, double silver, triple silver)

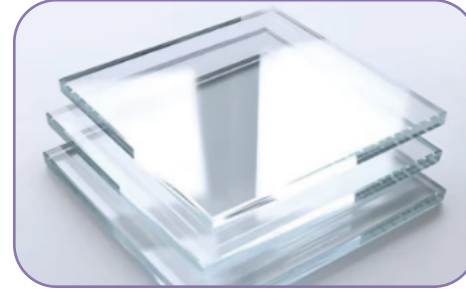

insulating glass

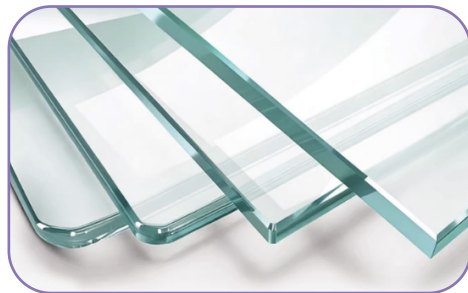

laminated glass

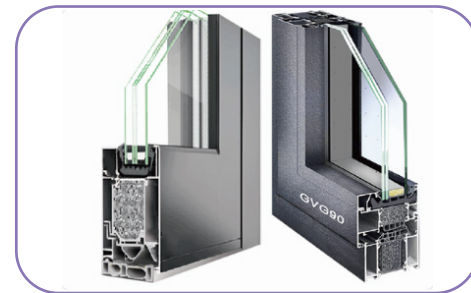

White glass

Single-pane glass

laminated glass

## Hardware accessories series

304 stainless steel double-hook hangers

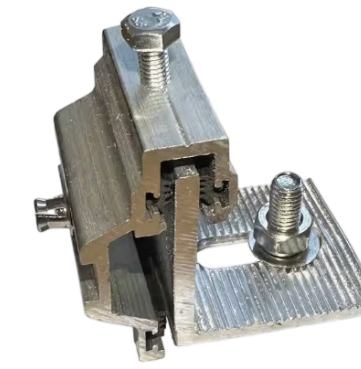

stainless steel Brackets

stainless steel claws for balconies

back bolts

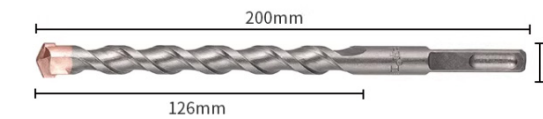

Cross-head machine wire

hexagon socket stainless steel self-tapping screws

drill bits

stainless steel round head self-tapping screws

stainless steel large flat head self-tapping screws

stainless steel self-tapping and self-drilling screws

taps

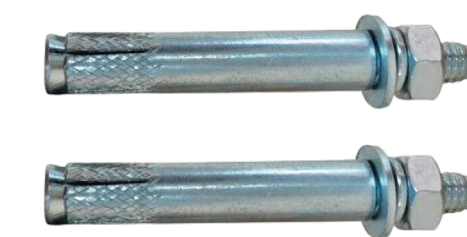

self-tapping screws

Inverted conical chemical anchor bolts (with chemical nut matching)

expansion bolts

stainless steel mechanical bottom expansion bolts

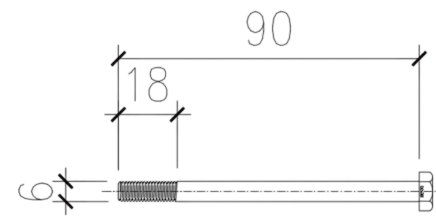

Hardware accessories series(Continued from the previous table)

lightning protection soft copper conductors

M6\*90mm stainless steel bolts

cross bits

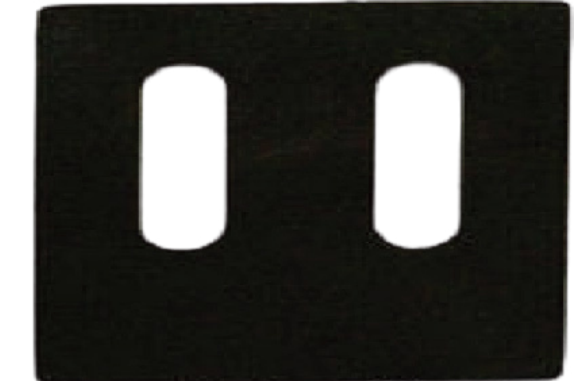

thickened scouring pads

grinding wheels

Soft rubber gasket

Hardware accessories series(Continued from the previous table)

electric welding rods

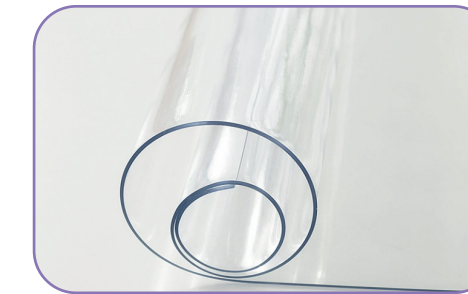

stainless steel welding wires

welding rods

Clear PVC sheet

Soft rubber pad

Foam strip

grinding discs

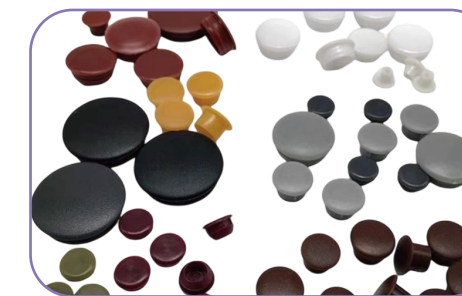

stainless steel slices

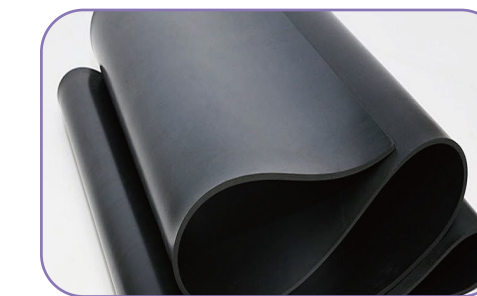

steel slices

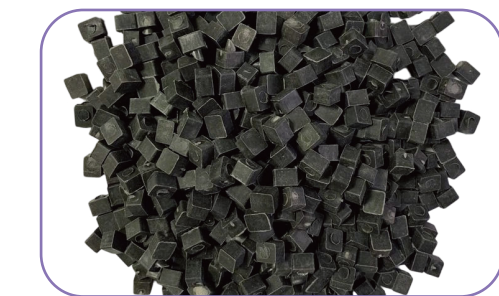

Round cap rubber plug

Hard plastic pad

Structural adhesive

slats

polishing wax

wool wheels

Waterproof material
